

MTE Capabilities

Since 1969, MTE has been a global leader in protecting people, assets and operations from fire, blast and radiant heat hazards. Through expert design, engineering and fabrication, we deliver bespoke fire and blast protection systems, thermal defence products and specialist fabrication solutions for some of the world's most demanding onshore and offshore environments. With over 50 years of expertise and extensive operations in Darlington, UK and Busan, South Korea, we support the oil & gas, petrochemical, defence, nuclear and renewable energy sectors worldwide, delivering dependable solutions engineered for safety, performance and reliability.

Our Global Footprint

MTE | Darlington, UK

MTE's global headquarters is located within a state-of-the-art, purpose-built office and manufacturing facility in Darlington, UK. From this modern centre of excellence, we design, engineer and manufacture bespoke fire and blast protection systems, thermal defence products and specialist fabrications for clients worldwide.

Backed by over 50 years of industry expertise, our internationally recognised testing, advanced engineering capabilities and comprehensive project delivery services enable us to provide fully certified turnkey solutions from concept through to installation and operational support.

Teesbase | Teesside, UK

MTE's global headquarters is located within Our strategically located Teesbase facility expands MTE's manufacturing, assembly, storage and project logistics capabilities. Situated on the River Tees with direct access to major transport and offshore routes, the facility supports large-scale modular, fire and blast protection and specialised fabrication projects for global energy, defence and industrial markets.

Together, our Darlington and Teesside operations provide over 100,000 sq. ft. of production capacity and 270,000 sq. ft. of dedicated yard space, enabling flexible and scalable project execution worldwide.

MTK | Busan, South Korea

established in 2013, Mech-Tool Korea (MTK) provides a local manufacturing and project delivery capability for Korean shipyards and regional clients, while maintaining the same high standards of safety, quality and engineering excellence associated with MTE.

Located in Busan, MTK delivers design, engineering, project management and manufacturing services, strengthening our ability to support international customers through a truly global delivery network.

Global engineering expertise. Local delivery capability. Trusted worldwide since 1969.
